## List of Entries Used

### Field - Color

COLOR is an eight space field. To ensure that all items are reported, when searching, use the beginning letters of the COLOR, followed by the wild card (\*). This permits the search to include any attached designators. Colors which have had the spelling modernized have the assumed designator, "=." attached. Using the wild card character and the beginning of the word will also accommodate several longer truncated words, such as Vermillion.

Abbreviations are used in the COLOR field usually where there are a combination of colors.

Abbreviations used are:

BLU: Blue	PUR: Purple
BLK: Black	RD: Red
BR: Brown	SIL: Silver
GLD: Gold	W:or WH: White
GR: Green	YEL: Yellow

Search Examples:

1- When searching for red use "red" or "rd" to find all of the entries. This is the same process used for black (blk) and gold (gld).

2- All other abbreviations use the beginning of the word, searching for "BLU" plus the designator "\*" finds all blue, blue & white, blue & red, etc. listings in the COLOR field. Using the designator "\*" before and after BLU finds blu anywhere in the field.

Agate	Flowered	Rd Gr Wh
Blu / Gr	Gilt	Rd / Blu
Blu / Rd	Gilt Edg	Red
Blu / Wh	Gold	Red / Gr
Blu Edge	Gr / Blu	Red / Wh
Blu Gray	Gr / Wh	Red Edge

Dove	Plaid	Wh Gilt
Drab	Polished	White
Embossed	Printed	Yel / Wh
Enamel	Pur / Wh	Yellow
Figured	Purple	

## List of Entries Used

### Field - Material

MATERIAL is an eight character field. To ensure that all items are reported, when searching, use the beginning letters of the MATERIAL, followed by the wild card (\*). This permits the search to include any attached designators. MATERIALS which have had the spelling modernized have the assumed designator, "=" attached. Using the wild card character and the beginning of the word will also accommodate several longer truncated words, such as Chocolate or Cochineal

Abbreviations are used in the MATERIAL field usually where there a compound word, such as "bell metal" or "lignum vitae."

Abbreviations in the MATERIAL field are:

BEL MET:	Bell Metal	LIGN VIT:	Lignum Vitae
BLK WAL:	Black Walnut	PR:	Princes
FR:	French	QU:	Queen
		WH:	White

Search Examples:

1- When searching for Japan, by entering "Japan" in the search, the researcher will find only "Japan" items in the database. But by adding the wild card character "\*" as in "japan\*" - all japan or japaned items will be reported.

2- A search for "Wal" yields all walnut items, but by using the wild card character before and after "wal" as in "\*wal\*" the search will produce all walnut and black walnut items. The wild card character before "wal" allows the filter to find the item any place in the field.
