

## Nomenclature

The format for the nomenclature is: **CATEGORY**: SUB-CATEGORY: Type

TYPE is a twelve character field. When longer words are used they have been truncated by the system, which will permit the entry of only the first ten characters, including designators. Consequently, the researcher should search, using the beginning characters of the type, followed by the wild card "\*". This permits the search to include any attached designators, i.e., "-" or "=", as well as accommodating the longer truncated words.

Abbreviations used in the TYPE field are:

C / S: cup & saucer  
 Di: dish  
 Handker: handkerchief  
 [illeg] illegible  
 K / F: knife & fork  
 Looking Gl: looking glass  
 Mrtr / Pstl Mortar & Pestle  
 Scls: scales  
 Wgh: weights

## List of Entries Used

### Field - Color

COLOR is an eight space field. To ensure that all items are reported, when searching, use the beginning letters of the COLOR, followed by the wild card (\*). This permits the search to include any attached designators. Colors which have had the spelling modernized have the assumed designator, “=.” attached. Using the wild card character and the beginning of the word will also accommodate several longer truncated words, such as Vermillion.

Abbreviations are used in the COLOR field usually where there are a combination of colors.

Abbreviations used are:

BLU: Blue	PUR: Purple
BLK: Black	R or RD: Red
BR: Brown	SIL: Silver
GLD: Gold	W:or WH: White
GR: Green	YEL: Yellow

Search Examples:

1- When searching for red use “red” or “rd” to find all of the entries. This is the same process used for black (blk) and gold (gld).

2- All other abbreviations use the beginning of the word, searching for “BLU” plus the designator “\*” finds all blue, blue & white, blue & red, etc. listings in the COLOR field. Using the designator “\*” before and after BLU finds blu anywhere in the field.

Agate	Flowered	
Black	Gilt	Rd / Blu
Blk / Wh	Gilt Edg	Rd Gr Wh
Blk / Yel	Gold	Red
Blu / Gr	Gr / Blu	Red / Gr
Blu / Rd	Gr / Wh	Red / Wh
Blu / W	Gr Edge	Red Edge

Dark	Pink	Vermilli
Dove	Plaid	Wh / Br
Drab	Polished	Wh Gilt
Embossed	Printed	White
Enamel	Pur / Wh	Yel / Wh
Figured	Purple	Yellow

## List of Entries Used

### Field - Material

MATERIAL is an eight character field. To ensure that all items are reported, when searching, use the beginning letters of the MATERIAL, followed by the wild card (\*). This permits the search to include any attached designators. MATERIALS which have had the spelling modernized have the assumed designator, “=” attached. Using the wild card character and the beginning of the word will also accommodate several longer truncated words, such as Chocolate or Cochineal

Abbreviations are used in the MATERIAL field usually where there a compound word, such as “bell metal” or “lignum vitae.”

Abbreviations in the MATERIAL field are:

BEL MET:	Bell Metal	LIGN VIT:	Lignum Vitae
BLK WAL:	Black Walnut	PR:	Princes
FR:	French	QU:	Queen
		WH:	White

Search Examples:

1- When searching for Japan, by entering “Japan” in the search, the researcher will find only “Japan” items in the database. But by adding the wild card character “\*” as in “japan\*” - all japan or japaned items will be reported.

2- A search for “Wal” yields all walnut items, but by using the wild card character before and after “wal” as in “\*wal\*” the search will produce all walnut and black walnut items. The wild card character before “wal” allows the filter to find the item any place in the field.
