Field - Color

COLOR is an eight space field. To ensure that all items are reported, when searching, use the beginning letters of the COLOR, followed by the wild card (*). This permits the search to include any attached designators. Colors which have had the spelling modernized have the assumed designator, “=.” attached. Using the wild card character and the beginning of the word will also accommodate several longer truncated words, such as Vermillion.

Abbreviations are used in the COLOR field usually where there are a combination of colors.

Abbreviations used are:

BLU: Blue	PUR: Purple
BLK: Black	R or RD: Red
BR: Brown	SIL: Silver
GLD: Gold	W:or WH: White
GR: Green	YEL: Yellow

Search Examples:

1- When searching for red use “red” or “rd” to find all of the entries. This is the same process used for black (blk) and gold (gld).

2- All other abbreviations use the beginning of the word, searching for “BLU” plus the designator “*” finds all blue, blue & white, blue & red, etc. listings in the COLOR field. Using the designator “*” before and after BLU finds blu anywhere in the field.
